

## PROJECT INFORMATION SHEET

### SECTION I. GENERAL PROJECT INFORMATION

1. Project ID Number \_\_\_\_\_ County (may mark all appropriate)
2. Person Submitting \_\_\_\_\_
3. Organization \_\_\_\_\_
4. General Description of Project \_\_\_\_\_
- 

- Cameron
- Hidalgo
- Starr
- Willacy

5. Estimated Cost of Project (including all costs and all potential funding sources)  
(Check one box only)

- Large - \$25 million or more
- Medium - \$2.5 million to less than \$25 million
- Small - Less than \$2.5 million

6. Does the project meet the Mission Statement?

*To ensure economic growth and economic recovery following natural disasters -*

- **Project protects or enhances assets and revenue generators of major economic areas, or those areas which are employment centers and generate substantial sales tax and other revenue; and/or**
- **Project is critical to overall recovery and future growth; and/or**
- **Project would improve conditions critical to the diversification of the region's economic base.**

- YES
- NO
- UNSURE

Additional Explanation:

*PLEASE COMPLETE REMAINDER OF FORM, AS POSSIBLE, EVEN IF YOU ANSWERED "NO" OR "UNSURE"*

## **SECTION II. DETAILED PROJECT INFORMATION**

1. Specific location of project (and also specify taxing jurisdictions by name - city, special district, commissioner precinct, etc.)
2. Project detail (type, length)
3. Any potential construction issues
4. Specific cost information (Engineering, construction, construction management, right of way) including data source
5. Local funding commitments or availability (Specifics – budgeted, allocated, ROW acquired, etc.)
6. Estimated operating/maintenance costs
7. Local funding/commitments to operations and maintenance
8. Geographic area affected/impacted by project
9. How the project is connected to any overall stormwater system(s)
10. Number of persons in affected/impacted area (census data)
11. Land use – existing - predominate and range (industrial, commercial, residential, agricultural, vacant land)
12. Value of land and improvements in affected/impacted area (Appraisal district)
13. Sales taxes generated in affected/impacted area
14. Other local taxes generated in affected area (hotel/motel, etc.)
15. Types/names of any public facilities or major infrastructure in the affected area
16. Estimated value of any public facilities or major infrastructure in the affected area
17. Any new development or major changes in land use that are planned or might occur as the result of the project
18. Any estimates on the value of these developments/changes and local tax revenues that could be produced
19. Description of past flooding in affected area (extent, severity, impact)

**LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL**  
*Regional Economic Adjustment Plan for Building Disaster Resilient Communities*  
**EDA Grant No. 08-79-04390**

20. How the project will address/lessen/solve potential for future flooding
21. History of complaints (type, source, frequency, other specifics)
22. Any known property loss, local tax losses, loss of employment and/or business income, threat to public health, injuries, or loss of lives as the result of past flooding and how project might address
23. Any resolutions or commitments that demonstrate local support
24. Any other public input indicating public support or opposition to project
25. Any known or likely environmental impacts or permit requirements
26. Any permits or regulatory (environmental and other) studies completed or underway with specifics
27. Any known or likely environmental impacts or permit requirements
28. Are there any known legal impediments, including ROW acquisition problems, or issues – be specific
29. Will the project eliminate or address any choke point or critical isolated problem that affects overall flooding/draining – be specific
30. How project will connect to regional system and how might impact downstream (outside of affected area)
31. Additional information required or unavailable with reasons
32. Contact persons for additional information (name, organization, phone number, email)
33. Other comments or notes

**SECTION III. PROJECT EVALUATION**

Reviewer(s)\_\_\_\_\_

1. Does the project information provided appear sufficient to allow an evaluation of project to be completed?

YES

NO

If no, then explain and return to persons submitting for additional information required:

\_\_\_\_\_  
\_\_\_\_\_

2. Does the project meet the mission statement?

*To ensure economic growth and economic recovery following natural disasters -*

- **Project protects or enhances assets and revenue generators of major economic areas, or those areas which are employment centers and generate substantial sales tax and other revenue; and/or**
- **Project is critical to overall recovery and future growth; and/or**
- **Project would improve conditions critical to the diversification of the region's economic base.**

YES

NO

UNSURE

If no or unsure, explain and file project appropriately – no further evaluation conducted

\_\_\_\_\_  
\_\_\_\_\_

3. Does the project appear to have any fatal flaws (substantial legal or environmental impediments)?

YES

NO

IF YES, EXPLAIN

\_\_\_\_\_  
\_\_\_\_\_

**LOWER RIO GRANDE VALLEY DEVELOPMENT COUNCIL**  
*Regional Economic Adjustment Plan for Building Disaster Resilient Communities*  
**EDA Grant No. 08-79-04390**

4. Project scoring. If the project meets 1 and 2 above, proceed with scoring below.

<b>GOAL: DEVELOP AN INTEGRATED STORMWATER MANAGEMENT SYSTEM THROUGHOUT THE REGION (35 POINTS TOTAL)</b>	<b>SCORE</b>
How much area the project will serve (Maximum Value is 10)	
Will the project relieve the need for other improvements or maintenance in an area or downstream (Maximum value of 10)	
Does the project relieve a “choke” point or some problem that could enhance overall system (Maximum of 10 points)	
Is the project feasible/constructable/sustainable from an engineering and legal perspectives (Maximum value of 5)	
<b>SUBTOTAL</b>	

<b>GOAL: MAXIMIZE THE COST – BENEFIT OF STORMWATER MANAGEMENT EXPENDITURES IN THE REGION (40 POINTS TOTAL)</b>	<b>SCORE</b>
Number of persons directly impacted, including employment (Maximum value of 6)	
Property/Tax loss avoidance – existing property/businesses (Maximum of 4 points)	
Public sector infrastructure loss avoidance or avoidance of flooding to critical public or economic facilities (Maximum value of 5)	
Asset and revenue generator (Maximum value of 5 points)	
Improve Drainage Conditions consistent with Impact (Maximum of 5 points)	
Repair of Existing System (Maximum value of 5 points)	
Reduction in maintenance costs or improved life cycle costs (Maximum value is 5 points)	
Percentage project impacts as compared to the tax base of the local entity – community, city, jurisdiction (Maximum value is 5)	
<b>SUBTOTAL</b>	

<b>GOAL: ENCOURAGE INVESTMENT IN PROJECTS WITH PUBLIC SUPPORT TO ENSURE SUCCESSFUL IMPLEMENTATION AND NECESSARY COMMITMENT TO LONG TERM MAINTENANCE (25 POINTS TOTAL)</b>	<b>SCORE</b>
Does the project have public support as defined by commitment of local funds or resources including land/ROW /maintenance/operating funds in support of project – shovel ready versus up to 20 years (Maximum Value is 15)	
Does the project have resolutions or other actions by public agencies or private entities in support of project and citizen/resident support (Maximum of 5 points)	
Are there any potential fatal flaws in the project – lack of support, environmental/regulatory agency issues, legal impediments, problems that could result in lengthy delays (more than 5 years) in project construction (Maximum of 5 points if none but points may be deducted up to -25 if significant issues) - Explain	
<b>SUBTOTAL</b>	

**TOTAL SCORE** \_\_\_\_\_
